control your world

soundworksny.com

entertainment solutions

- Fully-equipped **high performance home theaters** for the ultimate movie experience.
- **Multi-room music and video**, where and when you want, controlled from the palm of your hand.
- Designer friendly **discreet televisions** hidden by artwork or a mirror.

design

The first step is to dream and explore all the amazing possibilities. We advise you on the latest home electronic systems and options. The goal isn't to decide on specific components, but rather to discuss all the ways you can enhance your home with easy-to-use technology. We paint broad strokes so you can visualize your wishes.

outdoor solutions

Make the most of the warmer months and bring your garden and patio to life with an outdoor audio visual system designed for you. Have friends over for a BBQ, throw a party under the stars or relax in your own backyard; Soundworks lets you set the tone for outdoor entertaining with your favorite movies and music.

Want to enjoy all the benefits of outdoor speakers without having to see them? No problem! Soundworks offers a variety of discreet landscape speakers that will blend into the scenery. We can custom install an array of rock speakers, planter speakers, or in-ground speakers to fit your preference. All our outdoor speakers are high performance and have year-round durability to withstand severe weather.

installation

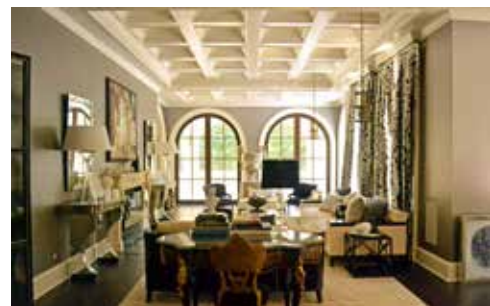

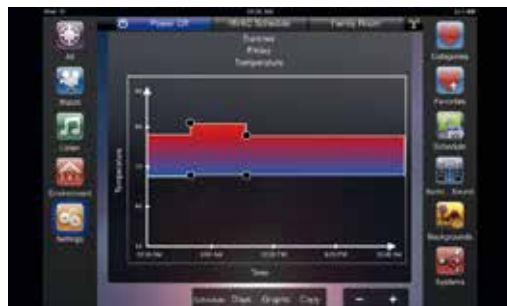

We wire and program everything and then test all aspects of your system. Our installation staff work quickly and neatly, ensuring your satisfaction and the highest performing system. Once completed, we happily show you and your family how easy it is to use and enjoy.

energy + safety solutions

Whole home lighting control saves energy, by calibrating the lights based on the time of day. Create perfect ambiance for entertaining or doing homework. When leaving home, press a single button to turn everything off.

Automated shade control allows you to save energy in any season, helps control the temperature of your main living spaces and saves your furniture from damaging UV rays.

- **Energy Management:** Monitor your energy consumption and make adjustments to save money.
- **Surveillance Systems:** Check your cameras in real-time or go back and view previously recorded footage.
- **Safety Solutions:** Control and monitor your home from anywhere in the world using your tablet and mobile devices.
- **Lighting, Shade and HVAC Control**

home network + business solutions

Integrated electronic systems require a robust enterprise-class seamless network. Soundworks uses network equipment that is designed to make your home and/or office perform to its optimum ability.

support

The best systems deserve the best care. If you have a question or concern, you can rest assured it is being handled by professionals who intimately understand high-performance technology. That's where Soundworks earns its highest praise. We support everything we've sold for over thirty years.

When you need us, we'll be there.

about soundworks

At Soundworks Inc, we have been doing what we love for over thirty years. This passion comes through the moment you meet one of our system designers, showroom, office or installation staff. We are a dedicated company that will guide you through every phase of a technology upgrade. It is our goal to see that you get the right electronic systems for the right application for years of satisfaction. This is where you'll really appreciate us and why so many clients have felt confident referring us to family, friends and neighbors. Our operation is all under one roof and decisions are made here; no faceless conglomerate to struggle with and no automated voice attendant to deal with.

Make an appointment to see how, at Soundworks, we can provide the tools for you to "control your world".
